Never Slow Down

Anthony Melillo

I got a few things that I gotta take care of
Theres a few people that I gotta call
Theres lots of reasons that I hate how lifes going
And I still got two more years till I can run from it all
I'm gonna, pack up my things and head down straight for Miami
Or South Carolina, no thats in the past
I think L.A.s a thought but Hollywoods better
Okay I dont know where i'm going but im going there fast
Cuz Im runnin Im runnin away from this town
My wheels they aint stopping till my car breaks down
Im runnin im runnin away from these years
Im gonna pack up all my problems and ill leave them right here
Cant wait to tell my friends that I never liked them
Cant wait to tell my girl im not that soft
Cant wait till the day that I graduate high school
Gonna walk in to my job and tell my boss to back off
Cuz im runnin im runnin away from this town
My wheels they aint stopping till my car breaks down
Im runnin im runnin away from these years
Im gonna pack up all my problems and ill leave them right here
I hear Chicagos got a thing or two
Maybe ill go and get a hotel room
Then theres New Orleans with the House of Blues
Cuz when your life is what is holding you
Then runnins what you gotta do, yeah, yeah
My wheels they aint stopping till my car breaks down
Im runnin' im runnin' away from these years
Im gonna pack up all my problems and ill leave them right here
Im runnin, yeah, away from this town
Im runnin' runnin' runnin' now
And dont you try an stop me cuz ill never slow down.
