Die Alone (feat. Jason Caesar)

Shane Eli

The world is waiting, finding freedom
People praying, hoping, dreaming
Of a world that ainâ€™t so cold
A place to save your soul
But you know, i know, we were Born to die alone
Die alone

Put your hands to the sky make the rain fall
Lost a father, made a million dollars on the same call
Kings and peasants live together in the same walls
Poor folks rich folks Sing the same song
Everybody wanna ring ex lebron
packing heat Pushing rocks to the mong??
And the night gets dark for the dawn
But the sunâ€˜s scared to come up now for too long

Light of the moon bodies stacking in the tomb
Even civilized folk kill in the right mood
Laws of the jungle always applied to a mankind on a mission
Turn the city to ruins
Getting paid is like sex, everybody want to do it

candles at the â€¦ till the wit burns too
and if the answers are true then who youâ€™re gonna save
yourself or the world cause were running out of grey

The world is waiting, finding freedom
People praying, hoping, dreaming
of a world that ainâ€™t so cold
A place to save your soul
but You know i know we were Born to die alone
Die alone

Gunpowder on my lips when she kissed that shell
I could place the smell
I saw God trying to catch me through the clouds as I fell
But I was lost in the â€¦.Of hell

His brother, Dark angel
Justice in the balance gets tangled

Like a charm on a chain kids kill for
ainâ€™t the best life but itâ€™s still yours

marble on the mantle thatâ€™s my new decor
pricks with the spoils, or rape killinâ€¦..
Black gold in the soil ran blood in the oil
Canâ€™t tell black â€¦.from tin for you
and folks say it ainâ€™t safe no more
why chase the leaders ainâ€™t a race no more
thatâ€™s why the heavens have faith no more
Salvation better come, Canâ€™t Wait no more

The world it's waiting to find the freedom
People praying, hoping, dreaming
of a world that ainâ€™t so cold
A place to save your soul
but You know i know we were Born to die alone

Die alone
The world is waiting, finding freedom
People praying, hoping , dreaming
of a world that ainâ€™t so cold
A place to save your soul
but You know i know we were Born to die alone
Die alone
Die alone
