L.A.S.H. (feat. Snak the Ripper)

Merkules

All I need is a light and some haze
So I can chill, lay back and relax and smoke nice
All I need is a light and some hazeThat's how I feel, its a fact, I pass it to the right
All I need is a light and some haze
So I can chill, lay back, and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, we pass it to the rightGive me your lighter while I write on this page
A fat dirty motherfucker living life in a cage
My trife and the ways have got me nod and off in the days
So call me insane, its almost like I'm caught in a maze
I copped the bombers product, chopping up this chronic for days
Shit you got is okay, but dawg its not all the same
Cause I'm a kush critic, I push that good spinach
You can smell it through the bag before you even look in it
You should buy in bulk, it ain't easy to come by
Everybody want it so I'm sleeping with one eye
You smoke bammer and you still broke, faggot
And you mad cause your chick look like Bilbo Baggett
Even if the weeds bump you gon' still go grab it
Plus you don't even inhale, you should kill those habits
I'm sorry buddy, I ain't letting it slide
Cause I'm a top notch smoker, you can tell from my eyes
All I need is a light and some haze
So I can chill, lay back and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, I pass it to the right
All I need is a light and some haze
So I can chill, lay back, and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, we pass it to the rightNow I'm smoking while I'm walking down a crossroad
Till I'm noticed there on the grass like a lawn gnome
They keep on knocking at my door, but I'm not home
So I'm rolling up with the hands, I'm Luongo
Plus I'm good with the math, its like a stock broke
You still smoking weed in a can, I brought my bong though
Ah, homie you can put your swag away
Save it for a rainy day, I never really take a break
I got trees beat, I don't even need friends
I just wanna put it on wax, no G pen

I don't seen them, I'm too busy burning one
You see my name in this like everybody heard it, huh
My maduke said say I suffer from addiction
But I can do this shit on my own with no prescription
I'm always smoking, but the alcohol is different
And every single time I think I'm bout to call it quits then
All I need is a light and some haze
So I can chill, lay back and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, I pass it to the right
All I need is a light and some haze
So I can chill, lay back, and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, we pass it to the rightAyo pass that shit Merk, I ain't even hit it yet
Just trying to kill some brain cells, tell me I'm an idiot
This stress it out my melon dawg, I'm trying to get rid of it
My head is always in a fog, I'm dying just a little bit
Put it on the paper then I'm sprinkling the pixie dust
Everyday I smoke a quarter triple aid, sixty bucks
Just got a bag of pick me ups, ain't nobody sick as us
Next time you kiss your grandma just remember that she licked my nuts
Smoke good, its obvious, you can't even front
Look like I'm puking on myself when you hand me the blunt
I got a fully loaded rifle and I'm planning to hunt
These rappers looking at me like they got some sand in their cunt
You smoking on that bunk weed and you trying to brag
Until I come around smelling like a skunk in my bag
And buying that dirt, ha I only kept for the best
And I'm a burn it till there's no fucking hair on my chest
Believe thatAll I need is a light and some haze
So I can chill, lay back and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, I pass it to the right
All I need is a light and some haze
So I can chill, lay back, and relax and smoke nice
All I need is a light and some haze
That's how I feel, its a fact, we pass it to the right
