Lady Luck

Goodbye June

You're a shadow,
Standing in your own sunshine,
Always doing what
Feels right, not wasting no time.You're alone,
Waiting for your bus to leave,
Waiting for your chance to go,
Waiting for your chance to breatheThrough the Darkness
Through the Darkness you run
Close behind you
Close behind you it comes
Lady Luck finally found
You out in the sunFriends and family,
Watching as you drive away,
But you still got your faith,
No matter how long it takes,
