# Almost Like Being There

## David Lee Murphy

I can't count the times
And all those lonely motel nights
I've stared at four gray walls
Missin' youThe miles don't seem as far
'Cause in my mind you're in my arms
I hear your voice
And all my dreams come trueAnd girl it's almost like bein' there
I close my eyes and you appear
I could swear
You're right there in the roomYou come to me like you always do
A sweet dream I surrender to
It's almost like
Being there with youIt goes straight to my heart
The way you whisper in the dark
Like only you can do
When we're aloneAnd in that big ole bed to
The words keep ringin' in my head
Girl even
After we hang up the phoneAnd girl it's almost like bein' there
I close my eyes and you appear
I could swear
You're right there in the roomYou come to me like you always do
A sweet dream I surrender to
It's almost like
Being there with youIt's almost like being there with you
It's almost like being there with you
Almost like being there with you
