So High So Low

Ben Harper

Once, once you know you can never
You can never turn back
What man but I understand 'cause we all fear what we lack
Being with you makes me tired as hell, tired as hell
And it's so high, so low
And it's so high, so low
Now if I was strong and if you were male
You'd be dead and I would be in jail
Bein' with you oh makes me tired as hell, tired as hell

Now it's so high, so low
Oh it's so high, so low
Don't go making promises you know you won't keep
Weddings turn to funerals both with songs that make you weep
Bein' with you makes me tired as hell
And it's so high, so low
Oh now it's so high, so low
Now it's so high, so low
So high, so low
