No Matter What

Mase

Yeah, here we go
Let's party again, let's party again
Let's party again, let's party again
Can't be stopped, won't be stopped
Let's dance again, let's dance again
Let's dance again don't know how to stop
Let's dance again refuse to stop
All Out, Bad Boy, come onYo, everyday I wake up, sick of the homeless
But other than that I'm a Bentley consumer I get pain
Yo' I cry like you, I get sick, I could die like you
I used to hate my broke days with a passionNow when I get big money I stash some
See a watch I like, I just grab one
Party and bullshit, book trips have fun
Get paid, get money, get doughGet laid, get honeys, get low
Platinum status what I live for
Sold four million now I want six more
Never satisfied just like my momWith 10 mill' sitting' in the treasury bond
When I roll dice just respect my arm
You can't put me on the level 'cause I'm level beyondIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayI be M.I.A and M.I.A.M.I, so am I the kid who be so appealing
Live a lifestyle so revealing, love them M N M's, the multi millions
So y'all could spit it out, me I live it out
Y'all cats lay away a month then get it out
I'm the first cat in the club all izzyed out
Rock ice burg when you thought it was Mickey MouseSo sit me, I'm pourin' Cris to the curb
All I got to do is just give a chick a word
Her whole team, you will see a chick with a bird
Messing with Mase you'll get what you deserve
A buck 50, nah, take a buck 60
Extra 10 good for thinking they can mess with meIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayIt don't matter what you do to me
I can handle what you send my way

No matter what I do today
You'll still have something to sayYo, you the type in the movies cuddled up
With a groupie hang by, buttered up
I ain't getting with you, yo' love her in her gut
That's the reason why you can't even bubble upYou get your team and huddle up
And come back with enough cream to Double Up
Until then I'ma still be here cooking
Anything I'm pushing, 20 G's a cushionWhy prove this kid is the smoothest
When there's people that pay me to do this
Pretty color cars is what we cravin'
Six star tele's is what we stayed inAny man with me must be made men
We just buy cars, we don't trade in
I don't need ten statements see what I'm saving
No need for a manager I need an agentIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayIt don't matter what you do to me
I can handle what you send my way
No matter what I do today
You'll still have something to sayMase Murda can't be stopped, P. Diddy can't be stopped
