Sail with Ease

Liam Bailey

its a pale sky with a warmth and certainty
getting easier to be
you can feel sun, you can feel the energy
catch the wind and sail with ease
nobody knows your name x2
nobody plays your game x2
tomorrows still untold
you can go your way, you can be true x2
its the sweetest thing with the ocean all around
its to find this melody
you can be yourself you can do your thing
find your voice and start to sing
nobody knows your name x2
you don't play their game, you don't play their game
tomorrow is still untold
you can go your way, you can be true x4
now that we found it, now that we own it, now that we surely come of age down in your garden those gates are open yes surely we've come of age
you can go your way, you can be true x4
you can be true x8
