On That Day

Acroma

On that day I finally saw it through wide open eyes
And on that day another autumn day I saw the lies
And I said stop `because I can't breathe
Let me take away this blinding light
And I said stop `because I can't breathe
Got to find my way out of this circus ring reality nowAnd I can't wait to shut it out tonight
And I can't wait to leave this all behind
And timelines blur the faces everything and all
And in the meantime I'll just fallOn that day I finally saw it through wide open eyes
On that day I lost the sweet denial and saw the lies
And I said stop, I can't breathe
Got to find my way out of this circus ring reality nowAnd I can't wait to shut it out tonight
And I can't wait to leave this all behind
And timelines blur the faces everything and all
And in the meantime I'll just fallLet me know how to deal with screaming here in silence slowly drowning
Maybe I'll just take my pills that take away the laughter pain and all
Please make me feel alive and real and take away this need
And take these dreams that hold me down nowAnd I can't wait to shut it out tonight
And I can't wait to leave this all behind
And timelines blur the faces everything and all
And in my own time I will fall
In my own time I might fall
In my own time I will fall
