Todays Ways

Bodyjar

********** Todays Ways ********** Just like I said When you know that you're so far behind You're so easily read Keeping the score Remember what I said to you Only speak when you are spoken to Open your eyes in the dark you can't see Lie to your friends If you have to be open with them I've got so much blackmail to be sent Today's ways Please don't ask for help my friend Don't owe you nothing Don't owe you nothing Today's ways Today's Keep your thoughts in your head Just like I said Trouble this time Your opinion is clashing with mine I can not see what you mean Haven't touched you yet my hands are clean Speak up and shout slam the door don't walk out I know that's not quite fair for you Keep on complaining The punishment will fit the crime But I don't care there's nothing you can do Like I said you're not my friend Like I said you're not my friend Like I said you're so easily led Like I said you're so easily led Today's ways Today's ways Don't owe you nothing
