Gunslinger

Whaleface

Lookin out cross this town
Kinda makes me wonder how
All the things that made us great
Got left so far behindThis used to be a peaceful place
Decent folks, hard workin ways
Now they hide behind locked doors
Afraid to speak their mindI think we need a gunslinger
Somebody tough to tame this town
I think we need a gunslinger
Therell be justice all aroundSomeone let the fences go
Wild eyed bunch moved in, you know
Shootin up the streets, shoutin everybody down
The dogs all runnin looseWrecked the paper, closed the school
Tired old judge got roughed up too
No one left to make a stand
They whisper whats the useI think we need a gunslinger
Somebody tough to tame this town
I think we need a gunslinger
And therell be justice all aroundI think we need a gunslinger
Somebody tough to tame this town
Think we need a gunslinger
And therell be justice all aroundI think we need a gunslinger
Somebody tough to tame this town
I think we need a gunslinger
And therell be justice all around
