Last to Know

Imperial Teen

Words travel fast,
so you spend all your time in your head,
whats the point in that?
cos words never last,
what you say now is not what you said,
and i'm okay with that,
Your keeping yourself tied up, so you wont let me down,
didn't you ever think just maybe?
ill understand you just give me the chance to,
love you more than you'll ever know,
even if it means i gotta let you go,
with or without me, baby you should be happy,
if your heading down another road,
wont you leave me with no where to go,
don't let me to be the last to know,
yeaah,
dont let me to be the last to know,
yeaah,
You take all i have,
still i pour you a half empty glass
what the point in that,
and all i ever asked,
is that you tell me when its not enough,
cos if its real love,
Ill understand you just give me the chance to,

love you more than you'll ever know,
even if it means i gotta let you go,
with or without me, baby you should be happy,
if your heading down another road,
wont you leave me with no where to go,
don't let me to be the last to know,
Maybe you'll find what your really wanted,
its what you left behind,
all your dreams are haunted,
maybe ill move on,
or maybe ill just stay,
Either way,
i hope you'll understand me,

if i say we cant be so if you wanna go,
i want you to know,
Ill understand you just give me the chance to,
love you more than you'll ever know,
even if it means i gotta let you go,
with or without me, baby you should be happy,
if your heading down another road,
wont you leave me with no where to go,
don't let me to be the last to knowwww,
yeaaaah,
dont let me be the last to know,
dont let me be the last to know.
