Summer Days

Toby Engelking

'Summer days'

Summer days came we were little lights
Little rays of sunshine in each other's eyes

Sat on a hill looking out to sea
What could we be if we were free

Summer days came we were little lights
Little rays of sunshine in each other's eyes

Look in my eyes look in at me
Tell me darling what do you see?

Summer days came we were little lights
Little rays of sunshine in each other's eyes

Living in the waves living in the sea
Summer days spent just you and me

Summer days came we were little lights
Little rays of sunshine in each other's eyes

Sand on my toes sand on yours
Building my own beach in my porch
