So True

The Black Seeds

The sweetest stuff, you give to me
It makes me feel fine
Every little word that you say to me
Keeps my heart on time
Red blood flowin' like a rough rapid
When you are near by
Ain't no doubt 'cos it's plain to see
You set my soul on fire

Something so true
Is what I get from you
An' I hope that you'll see
You get the best of me

Most generous love, you spread around
To the people in your life
Sharing the weight and the pressure
Just to make it right
I hope one day that you get it back
If that karma stuff is true
Here's a little song just to make a start
Called something so true

Something so true
Is what I get from you
An' I hope that you'll see
You get the best of me
