Set Me Free

Charli XCX

I am just crushed in the velvet
My heart is locked in a box
I am still sinking in black skylines
But now I want it to stopIm sailing high but I cant see
Ive been pushed around, up and down in a cloud
And I cant breathe
Im falling down, down to my knees
Youve gotta let me go, youve gotta help me out
Youve gotta set me freeYouve gotta set me free
You devoured my soul
Cause I can taste your lips on my lips
Your kisses make me out of control
And I can feel my blood
Its crawling through my veins
And you close your eyes and you twist your smile
Cause you can feel my painYou can feel my pain
You can feel my painI have been dancing with shadows
I have been calling your name
I feel the skin dripping from my bones
Your touch, it makes me insaneIm sailing high but I cant see
Ive been pushed around, up and down in a cloud
And I cant breathe
Im falling down, down to my knees
Youve gotta let me go, youve gotta help me out
Youve gotta set me freeYouve gotta set me free
You devoured my soul
Cause I can taste your lips on my lips
Your kisses make me out of control
And I can feel my blood
Its crawling through my veins
And you close your eyes and you twist your smile
Cause you can feel my painI cant do this no more
Youre tearing me apart
So give me one last kiss
And then I have to let you knowYouve gotta set me free
You devoured my soul
Cause I can taste your lips on my lips
Your kisses make me out of control
And I can feel my blood

Its crawling through my veins
And you close your eyes and you twist your smile
Cause you can feel my painYou can feel my pain
You can feel my pain
You can feel my pain
You can feel my pain
