Love Star

Roy Orbsion

Love Star, oh star of love have you forgotten me?
I'm so lonely for someone to love
Love Star, oh star of love look down so you may see
Someone for me like I'm dreaming ofYou see because my heart is shy
Somehow love has passed me by
And noone knows how much I cry
When I'm all alone for a love of my ownLove Star, they say for every heart a love star shines
So please, please shine for mine and let me find my love.You see because my heart is shy
Somehow love has passed me by
And noone knows how much I cry
When I'm all alone for a love of my ownLove Star, they say for every heart a love star shines
So please, please shine for mine and let me find my love.
