It's All Up To You

4-Kast

No matter which way the wind blows
It's always cold when you're alone
There ain't no candle in the window
You've got to find your own way homeNow the rain ain't gonna hurt you
It's come to wash away your blues
It's all up to youNobody said it would be easy
But it don't have to be this hard
If you're lookin' for a reason
Just stand right where you areThere ain't no one out to get you
'Cause they've got to walk in their own shoes
It's all up to youIt's all up to you
No one else can get you through
Right or wrong, win or lose
It's all up to youAnd you can stand out on that highway
Look as far as you can see
But when you get to that horizon
There's always some place else to beBut don't you stop to look behind you
'Cause you've got some travelin' left to do
It's all up to youIt's all up to you
No one else can get you through
Right or wrong, win or lose
It's all up to youHey, it's all up to you
No one else can get you through
Right or wrong, win or lose
It's all up to youNo matter which way the wind blows
It's always cold when you're alone
