My Promise to You

No Mercy

It's one year together and I loved you right from the start
There's nothing that's better and nothing to keep us apart
Now I wanna tell you how special your love is to me
'Cause this is our night, I'm gonna make it just right
And show you how love's gonna beI'll take care of you when you want me to
And do the things you want to do if you stay with me
I'll give constantly all the lovin' you wanted from me
This is my promise to you from my heart and my soul, this is trueBring you happiness, give you all the rest
Spend all my time on you, this is my promise to you
Darling, nothing will ever hurt you 'cause your happiness is my happiness
I'll always, forever be true, this is my promise to youOh yes, I remember, there were days when nothing seemed right
I needed somebody, needed someone to share my life
But I never dreamed about a lady like you loving me
But now everyday, I thank God as I pray for sending an angel to meI'll take care of you when you want me to
And do the things you want to do if you stay with me
I'll give constantly all the lovin' you wanted from me
This is my promise to you from my heart and my soul, this is trueBring you happiness, give you all the rest
Spend all my time on you, this is my promise to you
Darling, nothing will ever hurt you 'cause your happiness is my happiness
I'll always forever be true, this is my promise to you
