Let It Rain

Michelle Tumes

Awake me
You whisper on the breeze calling my name
Stirring
Storms of You, sweet lightning
I wait here
Shifting winds suddenly change
Feels like rain

And You're rolling like thunder
Heaven's wings will lift me up with rain
Will You raise me on Your river
Holy water falling down like rain
Let it rain

Searching
Above the sea of clouds, You're all I see
Endless
Tapestry of streams dancing
Around me
Starlight in shimmering waves
I feel rain

And You're rolling like thunder
Heaven's wings will lift me up with rain
Will You raise me on Your river
Holy water falling down like rain
Let it rain

Ooh, let it rain...

And You're rolling like thunder
Will You raise me on Your river
