Don't Come Home Too Soon

Del Amitri

So long, go on and do your best
Let all France have whiskey on it's breath
The world may not be shaking yet
But you might prove them wrong
Even long shots make it
(Even long shots make it)So go then, out into history
And show them how easy it can be
You might not believe it yet
But pretty soon you'll see
Even long shots make itJust don't come home too soon
Just don't come home too soonAnd I don't care what people say, we can laugh it all away
But if I have a dream at all its best for once
You won't be on that stupid plane
And the world may not be shaking yet
But you might prove them wrong
Even long shots make itJust don't come home too soon
Just don't come home too soonI don't care what people say
(Just don't come home too soon)
We're gonna laugh it all the way
(Just don't come home too soon)I don't care what people say
(Just don't come home too soon)
(Ohh)
We're gonna laugh it all the way
(Just don't come home too soon)I don't care what people say
(Just don't come home too soon)
(Ohh)
We're gonna laugh it all the way
(Just don't come home too soon)
(Ohh)
I don't care what people say
