Lifelike

Dust For Life

Way down low with the pretty ones
Floating on beautiful pills
So lifelike it's becoming realEverything is alright
Life is but a dream
Everything is alright
It's so lifelikeDeep inside your secret place
Cover me like a liquid angel
This hunger I could never feed
You are my uncertain dangerEverything is alright
Life is but a dream
Everything is alright
It's so lifelikeEverything is alright
Life is but a dream
Everything is alright
It's so lifelikeEverything is alright
Life is but a dream
Everything is alright
It's so lifelike
