LOVE GAME

CROSS GENE

The days go by, we argue all the time
I want to make it right, cause that was last night
Baby we gon be alright, baby we gon be alright
Yeah yeah love was the mark, bullets to your heart
I want to move on but my feelings too strong
I dont wanna waste time, I dont wanna waste time[Tyga]
Man,
I know we ain't finished, when it's barley beginning
All that time i'd put it, i'd put in but time was ending
So silly, chasin' the feelin' figured you felt different
But so many, so many girls, but i just stay with ya
See, love wasn't my intention, rather play dominos
Count money with my niggas, shoot dice
Gimme seven, rolling out the gate i hit twice
Black eyed peas, money baby, it's gonna' be a good night
And when i said i loved you, yeah i f-ckin' meant it
And we ain't gotta bring ya moms and ya sister in it
House too big, they all trying spend the night
You always be inviting them and i don't be liking em, at all
And i don't even say sh-t, cuz i just like to see you happy
Even when you fakin' it, so flavored it
You foul ass b-tch, man i hate you
I hope we can make up in the a.m.
cuz the,[chours]

Love game (love game)
Love game (love game)
Love game (love game)
Yeah, yeah, yeah, yeah
Its like we in a love game (love game)
Love game (love game)
Love game (love game)
Love game (love game)

Yeah, yeah, yeah, yeah[Tyga]
Uh,
Every last king need a queen,
If you, love me now, then forever hold this ring
Hold me down, defendant, hold me down
No witness, you always got much pride
But once you look in my eyes, it's over
You even told 'bout when you was younger
How your father abused you, i let you cry on my shoulder
No tissue, just short sleeves years seep through
All lives equal, thinking was you've been through
Yo genie, yeah i grant your every wish
Put you in enviorment, good company, good sucess
All ready set, you're going with the best
I know i lied before, but trust i ain't like you ex
Sex so good, brake up and break a sweat
We should stay together, then we fight again
Same old sh-t, different location
Feeling like my time wasted while the,[chorus][Tyga]
Tryna forget someone that you love
Like tryna remember someone that you never knew
Think about it, i dream about it
My nightmares haunting me, i can't sleep about it
Anxiety, can't breathe, can't live without you
The revival, all these verses is my survival
Standing at the podium, waiting on your arrival
One day, with no return
Like Usher say, gotta let it burn[Tyga - Talking]
The hardest part, about dreamin' about someone that you love
Is waking up to see that person gone
You know it, it takes second to say hello
But forever to say goodbye
Moving on is easy,
but what you leave behind is what makes it hard
