Beautiful (Acoustic)

The Parlotones

Wish upon a falling star
The passion patrol
Accept us for who we are
We've gone and lost control, oh no
The outline of miracle
Required to be traced
Eliminate the need for thrills
We all need to be saved today
And you are all beautiful
And you are all magical
Deserve to be adored
Deserve to be adored
The science of all of this
Is a parodied poem
Avoid it with swinging fists
Don't want to be alone, oh noThere's romance in bitterness
Say the borderline patrol
Differentiate happiness
The borderline patrol
And you are all beautiful
And you are all magical
Deserve to be adored
Deserve to be adored
I tell you for free
This is just formula
This is just chemistry
None of this is real to me
And you are all beautiful
And you are all magical
Deserve to be adored
Deserve to be adored
