Love Is All I Know

Keri Noble

We wanna know what I believe in
They think I should take a stand
Stand up, speak out, tell us about
Jesus, sex, politics, the color of my lipstick
Oh, manI have tried to do the best I can
Livin' on the right side of the tracks
But shame on my soul if I try to tell
Anybody else how to live
Oh, man, oh, manAll I know is love, love, love
Love, love, love, love
Love is all I knowWhen did love become old hat?
Why must it be any more than that?
'Cause haven't we already enslaved
Killed and maimed, enough in everybody else's name
Oh, man, oh, manAll I know is love, love, love
Love, love, love, love
Love is all I, love is all I knowOh, all I know is love, love, love
Love, love, love, love
Love is all ILove, love, love
Love, love, love, oh, yeah, love
Love is all I, love is all I knowLove is all I know
