Don't Walk Away

drumfish

Ill leave the caution up to you
The wind will have to pull me through
I have to play without my hands
And hope my feet will understand
They walk without me anyway
And when theyre tired they will say(Chorus) Dont walk away from the places you know
Need to be on my side
Dont walk away from the places you know
Follow me this timeIll leave the curtains up for you
The calling warm still rings untrue
My hands have left and gone away
But with out them I still play
Theyre taken back again by you
Just be aware when they tell you(Chorus)Can you whisper youre line
Cuz I can hear you wasting time
Whenever you decide to follow mine(Chorus) 2x
