Raising Hell

Zeromancer

Boom, semi automatic pulse
Psyched up for the next level
I plug you in
Make life flash before your eyesOh God, so fixated
It's love labeled X-rated
Oh God, so fixated
It's love labeled X-ratedNonstop mentality
You better learn your lesson well
Nonstop mentality
You better know your heaven wellBefore raising hell, raising hell
Raising hell, raising hellBoom, anti depressive eyes
Try to hide in an alibi
Smashed up but feel no pain
Doesn't mean you're in the gameOh God, so fixated
It's love labeled X-rated
Oh God, so fixated
It's love labeled X-ratedNonstop mentality
You better learn your lesson well
Nonstop mentality
You better know your heaven wellBefore raising hell, raising hell
Raising hell, raising hellNonstop mentality
You better learn your lesson well
Nonstop mentality
You better know your heaven wellNonstop mentality
You better learn your lesson well
Nonstop mentality
You better know your heaven wellRaising hell, raising hell
Raising hell, raising hell
Raising hell, raising hell
Raising hell, raising hellA new life is abused
Being bored and ignored
So fucking what, so fucking whatA new life is abused
Being bored and ignored
So fucking what, so fucking what
So fucking what, so fucking what
