## Malevolent Creation

Hostility released into  
Unsuspecting masses  
Radical gestation period  
It's time approaching faster  
When the process is unleashed  
All the world shall be done  
Draw in your last breath  
Pump the last of your blood  
Psychotic creation  
Bred on hate  
No stopping is involved  
It's genetic fate  
Organisms collide  
Split and divide  
Flesh slowing melts  
Infecting on virus cells  
Crushing of the spirit  
Depression now unfolds  
Body breaking down  
Cure is unknown  
No one civilian  
Is above its grasp  
Locked into disease  
One and all are trapped  
It's feeding on your weakness  
Process takes its toll  
Twisted internal pain  
Pathogens freely flow  
Bacterium infested  
Putrified rot  
Antibiotics useless  
Feeble pill and shot  
Bodies litter the landscape  
Is it what it seems  
Organs are internally raped  
Could it be conspiracy  
Cataclysmic extent  
Impending virulence
