Good Morning

The Kicks

I took a look
In your book
Read a few lines and I was hooked
I didn't know love until I met you
I was a mess
I must confess
That long black hair and a long black dress
I think that I was blind until I met youGood morning sunshine
Greet the day and the light
Its time to go outside
If you could keep steady
Get up and get ready
Its time to go outsideI crossed the lines
I made you cry
I must have done it a thousand times
I guess that love is just a mountain
All the things running through my head
All the things I wished I'd said
I'd be a fool to think that I could ever let you goGood morning sunshine
Greet the day and the light
Its time to go outside
If you could keep steady
Get up and get ready
Its time to go outside
With you
