Somebody Somewhere

Picture House

(Browne/Maitland/Glenister)
How can I explain how it came to be
It wasn't over night while I couldn't sleep
I can still remember how it used to be
Oh, 'cause somewhere, it's hard remembering but somewhere
Somebody knows my name
Just give me a coat and a shirt that's clean
Just a little dutch stops my body quaking
Don't wait too long before the doubt sets in
Oh, 'cause somewhere, why can't you understand that somewhere
Somebody knows my name
Here I am with my back against the wall
No further left to fall
If I can't stand then at least if I can crawl
Then I know that I won't forget
Somewhere
I know what's going on what they've planned for me
I catch every word it's all in my hearing
Don't wait too long before the doubt sets in
Oh, 'cause somewhere, it's hard remembering but somewhere
Somebody knows my name
Here I am with my back against the wall
No further left to fall
If I can't stand then at least if I can crawl
Then I know that I won't forget
Somebody knows my name
Somebody somewhere
Somebody somewhere
Somebody knows my name
How can I explain how it came to be
It wasn't over night while I couldn't sleep
Somebody knows me
Somebody knows me
Somebody knows me
