After We Make Love

Jesse Powell

Through the thick and through the thin
On your love I can depend
I must admit I thought about it now and then
But we were never more than friends
And it caught me by surprise
When I looked into your eyes
Something made me recognize
I needed you, you
Would it all be a mistake?
(Girl, if we make love)
Would you and I still be feeling this way?
(After we make love)
And friends will we remain?
(Girl, if we make love)
Can we promise that nothing will change?
(After we make love)
I still remember when we met
You had a smile I won't forget
And I would lie if I say I have never had
A thought of you when I'm alone in bed
Would it catch you by surprise?
Would you think I read your mind
If I were to say that I had longed for you, you?
Would it all be a mistake?
(Girl, if we make love)
Would you and I still be feeling this way?
(After we make love)
And friends will we remain?
(Girl, if we make love)
Can we promise that nothing will change?
(After we make love)
Baby, I don't wanna lose
Lose the friend I have in you
But my desire is taken over me
If love is knocking at the door
Who are we to ignore?
How do we know that love will come again?
Would it all be a mistake?
(Girl, if we make love)

Would you and I still be feeling this way?
(After we make love)
And friends will we remain?
(Girl, if we make love)
Girl, can we promise that nothing will change?
(After we make love)
Would it all be a mistake if you and I made love tonight?
(Girl, if we make love)
I wanna to know, will we still be feeling this way, girl
After we make love tonight?
(After we make love)
And friends will we remain, what's to become of you and I?
(Girl, if we make love)
I've gotta to know, can we promise that nothing's gonna change?
(After we make love)
Would it all be a mistake?
(Girl, if we make love)
Would you and I still be feeling this way?
(After we make love)
