Way

Deu' Galih

Here I lay in candlelight
I?m drenched in shadows
I need a way to get it right
I lost my halo

All the sins for which I am to blame
Closing in?I?ve got to get away

Chorus :
I?m going crazy
Just thinking about the way
I?ve missed you lately
And I just have to say
I know you?re waiting
But I would never change
I would never change

Either way you try to tame this growing fire
You couldn?t take away the pain of my desire

All the ways you crept into my head
Closing in are the last words that you said

Chorus

Bridge :
So Far Away, so far away
I miss your voice, I miss your taste
My chest feels hollow
Another time, another place
And I can?t let go

All the sins for which I am to blame
Closing in I got to get away
