Shine Like Stars

Holland

Feels like there's something in the air
And I hope my head explodes
So once more whisper in my ear
And I won't let this go againFrustrated, motivated
You're underneath my skin
Descending, never-ending
Well, make it to the endWe shine like stars
We shine like stars, oh yeah
Bright as the sun
We're dead and gone
We shine like starsHold your breath
There's something up ahead
And I think we were born for this
Feel love, punch you in the gut
And I think we were born for thisFrustrated, motivated
You're underneath my skin
Descending, never-ending
Well, make it to the endWe shine like stars
We shine like stars, oh yeah
Bright as the sun
We're dead and gone
We shine like starsI feel your heartbeat
I feel your heart
I feel your heartbeat
I feel your heartI feel your heartbeat
I feel your heart
I feel your heartbeat
I feelFrustrated, motivated
You're underneath my skin
Descending, never-ending
Well, make it to the endWe shine like stars
We shine like stars, oh yeah
Bright as the sun
We're dead and gone
We shine like starsWe shine like stars, oh yeah
Bright as the sun
We're dead and gone
We shine like starsWe shine like stars
We shine like stars

We shine like stars
