

It's All About You

Fairmont

Come here baby, yeah
I told you when I met you
I'd do anything it took to get you
But you never thought I'd ever take it this far
I work two jobs and that's not all
I've made up my mind to dedicate my whole life to your life
Baby, you're a superstar
It's all about you
Everything that I do, it's all about you
My mission in life, my purpose on Earth
To make sure you get all the love you deserve
It's all about you
I buy a dozen roses, box of chocolates
Get you tickets to the opera, Pavarotti
And the Monster Truck show
I'll take you on a Caribbean cruise
Buy you a hundred pairs of new shoes
Dress you up, diamonds, pearls and all that stuff
It's all about you
Everything that I do, it's all about you
My mission in life, my purpose on Earth
To make sure you get all the love you deserve
Do what you gotta do, don't worry about me
As long as I got you that's all I need
Ain't no one, no where, no how, no way
No man going to work harder for you
Any day, baby, everyday
It's all about you
Everything that I do, it's all about you
My mission in life, my purpose on Earth
To make sure you get all the love you deserve
It's all about you
It's all about you
