Dreams

Zug Izland

[French, saying something about a carnival]
Are you climbing up a slippery pole? (pole)
Fallin Deep In A Hole? (Deep In A Hole)
Fallin Down
Are you lost in an exitless maze,
Chasing impossible ways?
Are you runnin up a slippery hill?
Are you going to spill?
Can't you build a snowman in the desert?
Are You chasing an imaginary treasure?
Walls, they go under and there over the top (over the top)
They haven't made a cage strong enough to keep 'em keep 'em keep 'em (Keep 'Em)
Mountains are enormous, but they all have a top
It's up to someone with a dream to come and reach 'em reach 'em reach 'em (Reach 'Em)
It's Just A Dream
You're Only Dreamin'
Another Dream
Will love be yours, if so, will it last? (will it last)
When the summer's past, summers past (yeah)
When you're alone, starin up at the moon (up at the moon)
Is it staring at you (staring at you)
You're lucky dime you didn't mean to spend Will you ever see it again? (see it again)
Walls, they go under then there over the top (over the top)
They haven't made a cage strong enough to keep 'em keep 'em keep 'em (Keep 'Em)

Mountains are enormous, but they all have a top
It's up to someone with a dream to come and reach 'em reach 'em reach 'em (Come Reach 'Em)
It's Just A Dream
You're Only Dreamin'
Another Dream
[more french, saying something about a carnival]
Walls, they go under then there over the top (over the top!)
They haven't made a cage strong enough to keep 'em keep 'em keep 'em
(Strong Enough To Keep 'Em!)
Mountains are enormous, but they all have a top (They All Have A Top!)
It's up to someone with a dream to come and reach 'em reach 'em reach 'em
(Come And Reach 'Em!)
[french in backround]Yeah, come and reach em
Only a dream

It's just a dream
It's just a dream
And then they go on in your head and you would scream
Holdin Back your dreams
Yeah, ohh, holdin back your dreams
Yeah, Hold Always Dreamin' Never Always Dreamin'
