

# World Upon Your Shoulders (Live at Big Day Out)

## Silverchair

All the bridges in the world won't save you  
If there is no other side to cross to When you're not feeling ugly  
The world's not too much Take the world upon your shoulders  
Take the world upon your shoulders  
And burn, burn, burn, burn, burn  
Take the world upon your shoulders Half full glasses  
Lost in empty houses When you're not feeling nothing  
The world's not too much Take the world upon your shoulders  
Take the world upon your shoulders  
And burn, burn, burn, burn, burn  
Take the world upon your shoulders Violent, big and violent  
You're like a thing that's big and violent  
A world that's big and violent When you're not feeling nothing  
The world's not too much Take the world upon your shoulders  
Take the world upon your shoulders  
And burn, burn, burn, burn, burn  
Take the world upon your shoulders  
Take the world upon your shoulders  
Take the world upon your shoulders
