Fire In the Belly

Van Morrison

Call of the wildest, its got the best of you
Fire in my heart, fire in my belly too
Got a heart and a mind and a fire inside
And Im crazy about youYou, you on your high flying cloud
You, you when youre laughing out loud
You, you with your hidden surprise
YouStoke up my engine, bring me my driving wheel
Once I get started youll see just how I feel
And Im crazy about you
And Im crazy about you
And Im crazy about youYou, you on your high flying cloud
You, you when youre laughing out loud
You, you with your hidden surprise
YouGotta get through January
Gotta get through February
Gotta get through January
Gotta get through February
Gotta get through January
Gotta get through February
Gotta get through JanuarySpring in my heart, fire in my belly too
I come apart, I dont know just what to do
Got a heart and a mind and a fire inside
And Im crazy about youYou, you on your high flying cloud
You, you with the laugh in your eyes
You, you with your hidden surprise
YouGotta get through January
Gotta get through February
Gotta get through January
Gotta get through February
Gotta get through January
Gotta get through February
Gotta get through JanuarySpring in my heart, fire in my belly too
I come apart, I dont know just what to do
Got a heart and a mind and a fire inside
And Im crazy about youYou, you on your high flying cloud
You, you with the laugh in your eyes
You, you with your hidden surprise
YouTalking 'bout you

Talking 'bout you
(Talking 'bout you)
Talking 'bout you
(Fire in the belly too)Talking 'bout you
(Talking 'bout you)
