You Should Know

Dead by April

You should know
You should knowDon't tell me to...
Let go the past...
Cause it's all I've got
For me it's way too fast
Memories will lastFull of love and apologies
Trying to go on with a broken heart
I thought it through like a thousand times
What went wrong?
What went wrong?I am trying so hard...
You should know
I am falling to pieces without you here
You should know
I'm not able to go on without you here
I want you to know!
I try to breathe,
I try to sleep,
Try to feel
But without you here
I cannot breathe,
Cannot sleep,
Cannot feel
Not without you here...Don't tell me to...
To let go of you
It hurts to me.
Say that it's not too late,
That it's just a dreamFrom the bottom of my heart I'm sorry
Trying to go on with a broken heart
Can't get closure inside of this story?
What went wrong?
What went wrong?I am trying so hard...
You should know
I am falling to pieces without you here
You should know
I'm not able to go on without you here
I want you to know!
I try to breathe,
I try to sleep,
Try to feel

But without you here
I cannot breathe,
Cannot sleep,
Not without you here...All the memories still remain
I think of them again and again
My abilities are restrained
Can't get rid of you and the painWant you to know...
I thought you should knooo-ooo-uoowI am trying so hard...
You should know
I am falling to pieces without you here
You should know
I'm not able to go on without you here
I want you to know!
I try to breathe,
I try to sleep,
Try to feel
But without you here
I cannot breathe,
Cannot sleep,
Cannot feel
Not without you here...
