I Stare

Inamere

[Chorus]
I stare into the flame
'til I go blind
I'm burning, I'm burning out my eyes, eyes
x2

Experience everything
Don't hold back just live the dream
We'll watch the sunset from the bottom of the ocean

burn the city scene
just to see
thus art shown
I believe
I'm going insane
Let's go crazy

[Chorus]

Visualize the end of the sky
The air feels nice when you're high
and watercolors look like when you have no eyes
And we'll all fall down (all fall down)
Hold your breath 'til the sun burns out ('til the sun burns out)
So I fall asleep somehow

[Chorus]

(and I promise)
I promise I would, I promise I would
put out the fire
x2

[Chorus] x2
(We'll go straight to hell but (to hell but)) x2

Eyes, Eyes, Eyes
