VOICE

Tica

you call my name,
deep in the coldest blackest night
you save my life,
i heard your voice deep in the night
but in my nightmare,
i start to scream,
in my nightmare this is no dream
you call my name,
you save my life,
deep in the night
i heard your voice
i saw the flames,
i watch that memories turn to dust
i saw them burn
and walk away,
not looking back
but in my nightmare
i start to scream,
in my nigthmare this is not dream,
this is your dream
you call my name,
you saved my life,
deep in the night

i heard your voice
wake up, wake up, wake up
in my nightmare
i start to scream,
in my nightmare
this is no dream
sometimes i wake,
i see the fire in the night,
it's only dreams
i hear your voice deep in the night
but in my nightmare
i start to scream,
in my nightmare
this is no dream
you call my name,

you saved my life,
deep in the night,
i heard your voice,
you call my name,
you saved my life,
deep in the night
i heard your voice.
