Bring Me Through

Leslie Phillips

I've been in the basement
Groping for the light
But it just goes to show me
I walk by faith and not by sightBut now I feel
The walls are closin' in
The dark is blacker
Than it's ever been, LordYou've got to bring me through
'Cause there's nothing more I can do
You've got to bring me through
I leavin' it up to youBring me through, I've done all I can do
You've got to bring me through
I need you to bring me through
I need you to bring me throughYeah, deep inside I'm bleeding
Will nothing ease the pain
Aching memories beating like
A cold pulsating rainThe more I try to fight
The more I fail
Condemnation's got me
By the tail, LordYou've got to bring me through
'Cause there's nothing more I can do
You've got to bring me through
I leavin' it up to youBring me through, I've done all I can do
You've got to bring me through
I need you, oh, to bring me through
I need you to bring me throughI need your power, Lord
To quicken my soul
To come break the evil
That's taken holdYou've got to bring me through
'Cause there's nothing more I can do
You've got to bring me through
I leavin' it up to youBring me through, I've done all I can do
You've got to bring me through
I need you
I need you, oh, to bring me throughI need you, you, you, you
To bring me through
I need you to bring me through
Yeah, yeah, yeah, yeah
