# Stand Up (Summer Song)

## Skrape

This fades into all that you say
Up in, it's all mine
A virgin to the sound of today
We all shineStand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer songThis burns in my thoughts for today
A frame of mind
A picture in the sunlight and shade
Alive we live lifeStand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer songSunlight
SunlightStand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer songMy summer song
My summer song
My summer song
My summer song
