The Greatest Gift

David May

Peace on earth, no sugar plums, no stockings hung
But in their hearts, Christmas carols will be sung
They huddle 'round in this little town
When celebrating the birth of Christ, new life is found
Peace on earth, good will to all men
Give joy to the season by reaching out your hand
The greatest gift is the love we give
And we will find true peace of mind in the way we live
Peace on earth, good will to all men
Give joy to the season by reaching out your hand
The greatest gift is given free
True peace of mind can't be found beneath a Christmas tree
And we will find true peace of mind within you and me, peace on earth
