The Hunger for More (feat. Emma Rena)

Azad Right

Advisory - the following lyrics contain explicit language:

[Verse 1: Azad Right]
I believe in people, I believe in karma
I believe we're all equal cause one day we're all goners
Uh, the inevitables round the corner, must I remind you?
Man, what you leave behind is what defines youSo I try to create a moment with every moment I got
Making music til I'm uninspired, that's the moment it stops
Obsessed with my past wish I could go back to them days
Pictures might fade but those memories I'm taking to the graveNot quite living the life I imagined
But shit that's what keeps me doing, I live for a challenge
I just take a couple hits of green when I slip outta balance
And remember the promises I made while I sip out the chaliceBoy, I'm a thoroughbred 90s brother, grinding since a snot nose
Wildin' with the homies, we was dodging all them pot holes
Moms ain't have the money to cop the polos and the Jordans
So my thirsty ass stole em, man I had to fucking rock thoseSpent way too much time running money schemes
Looking back, that shits a funny thing
Yeah, ain't it ironic that you can't take it with you
But you can't live without it, I can't wrap my head around itMy father gave me independence early
He took me out my element and let me make my own mistakes, it might not sound safe
And shit, I know that he was worried
But he put his faith in the universe
That shaped the way I view the worldHis foresight allowed me to grow as a man
Had to make my own decisions, without ever holding his hand
And for that I'm forever grateful, I know you can't replace experience
The first hand theory's so serious, point blank periodMade man, and I ain't never had a maid man
These my own thoughts nobody's told me what to say man
So whether you meet me up in person or on face cam
Just know that i'ma still be the same man, AZ[Hook: Emma Rena]
What you won't do
Do for love
You've tried everything
But you won't give upIn my world

Only you
Make me do for love
What I would not do...The hunger for more
X4Humming...
