Swim Farther Aaron

Copeland

I don't know what happened that evening
Ever since I've been alive
Convictions beyond understanding
Understanding of who's I am
So God dont give me vision
My faith will be my relief
God don't give me a vision
Cause I already believe
Cause I already believeFather strengthen me now
Till my only weakness is you
Father comfort me now
I won't rest till I'm walking with you
And forgive my lack of perfection
Let me know for sure
How tainted appears my reflection
Cause perfection is anything you
Cause perfection is anything youFather strengthen me now
Till my only weakness is you
How tainted appears my reflection
Cause perfection is anything you
Cause perfection is anything youOh Father strengthen me now
Till my only weakness is you
Father comfort me now
I won't rest till I'm walking with you
And forgive my lack of perfection
Let me know for sure
How tainted appears my reflection
Cause perfection is anything you
Cause perfection is anything you
Cause perfection is anything you
