

Charge Into the Sun

The Briggs

Can peace keep this from happening?
Waging fear we cant forget
A disease, his words are spreading it
There is no need to argue
Now just do what he says You must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV The need, no theres no stopping it
And you wont believe your eyes this time
The last message we tried to send
Fell into the wrong hands again
Remember they can make up anything You must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV Let the truth unfold
Were waiting for an answer
This silence is our hymn
Our fists are raised and its time
To take back what is mine You must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV, yeah You must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV, yeah
