Rosalie

Ahab

She's quite the mediator
A smoother operator you will never see
She'll see you later
No one dare disobey her openly
She knows music
I know music too, you see
She's got the power
The teen queen, Rosalie
Rosalie, Rosalie
Rosalie, Rosalie
She's got the pleasure
Comes from all the cornerstones of the world
She's so fantastic
She's everybody's favorite little record girl
She knows music
I know music too, you see
She's got the power
I got the power, Rosalie

Rosalie, Rosalie, yeah
Rosalie, Rosalie
Down on me, Rosalie
Shine on me, will you please
From 'Chattanooga' to good old 'Booga Loosa'
You can hear her fine
She makes the choices
Then you'd best be smiling when it's choosing time
She knows music
I know music too, you see
She's got the power
She is a tower, Rosalie
Rosalie, Rosalie, yeah
Rosalie, Rosalie, yeah
Rosalie, Rosalie, yeah
Rosalie, Rosalie, yeah
Rosalie, Rosalie
