Dolphin

Angel Canales

Drifting along, where am I to go?
The purpose in me, sadly I don't know
Who'll take my hand? I'm sailing in the sand
Nothing to enjoy, feeling quite destroyed
But I know a magic dolphin
Swimming above the world
And in my dreams he promised me
That someday I'll find my girl
No one to love, no one to lose
All by myself, this is what I choose
Lovers everywhere, why should I even care?
Will I ever change? That would sure be strange
But I know a magic dolphin
Swimming above the world
And in my dreams he promised me

That someday I'll find my girl
She has the taste of summer
Cute shiny eyes of love
And until I find that girl of mine
I have a friend above, yes I have a friend above
'Cause I know a magic dolphin
Swimming above the world
And in my dreams he promised me
That someday I'll find my girl
She has the taste of summer
Cute shiny eyes of love
Until I find that girl of mine
I have a friend above, I have a friend above
Yes, I have a friend above
