Round And Round

Sophie Hunger

In the backyard you said : "Let's have a family"
In the frontyard you note: "Oh, don't you wait for me"
In the paper you wrote: "I'm free as free can be"
And your footprint, you left no legacy

Round and round and round you go
who you are, nobody knows

Funny air, blow over, blow over, blow over
So unaware, fall over, fall over, fall over
In the backyard I sought a family
In the front yard I wrote on theories
In the paper my note " I will, I will for eternity
Now my footprints: You are my legacy

Round and round and round you go
Who you are, nobody knows

You were a shot in the head, when I thought I was home
And I keep throwing you up, So I won't be alone
And I still lead you around, claiming amends
And I wake you and make you and break you again
