Curtain Call

Aiden Grimshaw

Curtain calls, theres no more alcohol
As the rain begins you feel it soaking into your bones
Dont let time be wasted
Let your heart dictate this
Take my hand and follow me
Lose control with me tonight
Give me all your love please
Give me all your love please, please
Hey, give me all your love please yeah
I said give me all your love please, please
Silence stares big leap
I am unprepared,
But Im fighting it
We ignite in this once more
Burning bright sensation theres no medication
But that we could recreate, this world we make cuz its ours
And you say all my love
You know Ive come to bring you peace
Give me all your love please
Give me all your love
Give me all your love please
Oh, all I need is all your love,
Give me all your love please, please
Give me all your love
Give me all your love please
Oh, all I need is all your love,
And all I need is all your love, is all your love
Is all your love
Oh my love, you know Ive come to bring you peace
Youll be saying ooh my love
You know Ive come to bring you eace
I need your lovin all day baby
I need your lovin all night
Ill keep you on, and Ill hold you tight
I need your lovin all night
I need your lovin all day
Said only can need the words I mean t say
Give me all your love please
Give me all your love

Give me all your love please
Oh, all I need is all your love
Give me all your love please
And all I need is all your love, is all your love
Is all your love
Curtain calls, theres no more alcohol
As the rain begins you feel it soaking in
