Vanished

Varsity Fanclub

I'm reaching,
I'm reaching for the love I lost tonight
& I Don't know why
You're right here, you're right here But you seem so out of sight
It's messing with my mindYou used to breathe with me
You once believed in me
But now I'm incomplete
Thought we were meant to beWhere did you go?
Where did you go?
Where did you go?
You vanished
Where did you go?
Where did you go?
Where did you go?
You vanished (vanished)I'm wondering
Something that you said would never die
Has lost it's life
It's fighting
Thinking how I opened up to you
But now it's turning toWe were the best of friends
That's why this pain won't end
And this is killing me
Thought we were meant to beWhere did you go?
Where did you go?
Where did you go?
You vanished
Where did you go?
Where did you go?
Where did you go?
You vanishedYou're just like a magician
Wave your wand, now your missing
Where'd you go?
Where'd you go?
Where'd you go?
Wish I could bring us back
Just who could picture it
But it's too late for thatWhere did you go?
Where did you go?
Where did you go?

You vanished
Where did you go?
Where did you go?
Where did you go?
You vanished
Where did you go?
Where did you go?
Where did you go?
You vanished
Where did you go? (go,go,go,go)
Where did you go? (you vanished)
Where did you go? (go,go,go,go)
Where'd you go?
Where'd you go, go, go?
Where did you go?
(Vanished)
Where did you go?
